Power + Reliability

Manley Has What You Need For Performance Proven Engine And Cylinder Head Assemblies

Platinum Series Pistons For Over 30 Popular Engines

Forged from the preferred 2618 alloy and precision machined to exacting tolerances. Available in a wide range of bores sizes and configurations (dish and flat-top). All with moly-coated skirts.

H-Beam, H-Tuff & I-Beam Turbo Tuff® Steel Con Rods

Manufactured from 4340 forgings and finished to the industry's highest standards. Furnished with premium ARP rod bolts (8740 chrome moly or 220,000 psi ARP2000).

Standard & Stroker Rotating Assemblies For Mitsu & Subi

Manley rotating assemblies include premium rods, pistons and crankshaft, plus Total Seal rings and ACL race series bearings that are narrowed to match the assembly.

Stainless Steel Valves In Various Alloys And Shapes

These include popular Race Flo and Race Master models, as well as Extreme Duty designs for high boost applications. Custom sizes available through Manley's Gen II valve program.

Premium Valve Springs For 10,000 RPM Applications

Manufactured from a super clean alloy, these premium grade springs can handle aftermarket camshifts at up to 10,000 RPM operation when combined with Manley titanium retainers.

Valve Spring Kits And Titanium Retainers

Improve RPM potential with precision CNC machined retainers made from heat-treated aerospace grade titanium. Available kits with matched valve springs and lightweight, durable retainers.

Forged And Billet Steel Standard & Stroker Cranks

4340 steel forgings in Lightweight and Super Lightweight designs that are stress-relieved, shot-peened, nitrited and 100% magnafluxed.

SERIOUS PERFORMANCE.

SERIOUS WHOLESALE POWER BY ATECH MOTORSPORTS.

- Access to Over 1,500 Brands
- Unbeatable Service and Satisfaction
- Huge Inventory—We Stock it so You Don't Have to
- FAST, FREE Shipping—Reliable 1-2 Day Delivery
- Drop Ship Service at No Additional Fee
- We Export at Competitive Rates

CONTACT US FIRST!

Atech Motorsports is the fastest, easiest way to access the best high performance parts and brands in the industry at wholesale prices, with real-time inventory and pricing available to you 24/7. Our four national warehouses are packed to the rafters with millions of parts from 1,500+ brands—we continually add new brands all the time—ready to ship to your door at a moment's notice or dropship directly to your customers for no extra charge. Simply tell us your needs and give us the opportunity to become your go-to parts source for all things automotive.

CONTENTS

From the Editor 6

Updated for the 2022 racing season, this year's all-new PRI Buyers Guide showcases hundreds of the latest parts, equipment, and solutions to give wholesalers, retail businesses, race teams, and more a competitive edge.

Engine Components..... 10

Here you'll find scores of state-of-the-art components—from blocks and sleeves to connecting rods, pistons, camshafts, valves, fuel systems, intake manifolds, cylinder heads, and more—for almost any type of powerplant.

Chassis, Driveline & Suspension... 62

All-new products—including roll cages, rearends, differentials, bellhousings, clutch kits, shocks and springs, tires and wheels, and more—for race car fabrication and parts sales are presented here.

Racing Components, Accessories & Services 88

From racing suits and helmets to oils and lubricants, trailers and awnings, toolboxes, and much more, this section includes a diverse collection of new products and services for teams, drivers, and vehicles.

Machinery, Tools & Equipment 128

Discover the latest machining and shop equipment precision-engineered to enhance cutting, honing, porting, and more, along with cutting-edge fabrication and welding solutions, and new-to-market tools and tooling solutions.

Race Track Equipment 156

A select group of providers offer the very best in solutions designed to improve racing programs for venue operators and competitors through better track conditioning, communications, safety, and more.

Sanctioning Bodies 160

A comprehensive list of the governing bodies that develop and enforce rulebooks, penalize infractions, run sponsorship and contingency programs, manage payouts, and ensure fair and equitable competition.

Manufacturers' Representatives .. 176

An invaluable link between performance racing manufacturers and the customers who move their parts, these reps interact with everyone from the largest warehouse distributors to the smallest speed shops and engine builders.

Warehouse Distributors 188

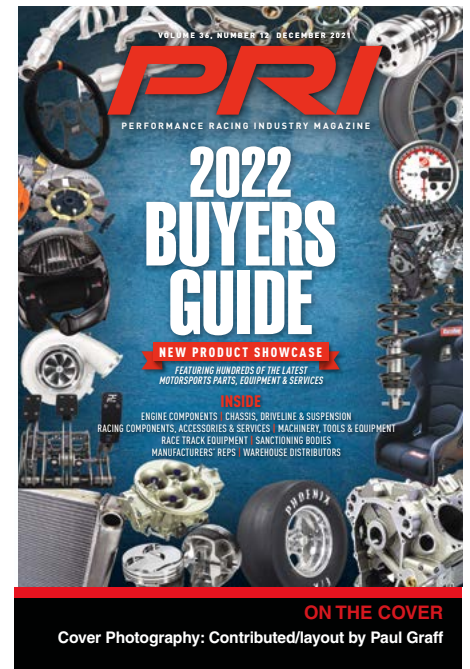

These WDs provide valuable storage space as well as communication tools, technical support, cataloging, and other useful services for suppliers and the retail businesses that interact directly with racers and team members.

Suppliers Index..... 192

Reference and contact information for hundreds of leading product suppliers representing all forms of motorsports—drag racing, circle track, road racing, off-road, vintage, diesel, marine, EV, and more—is organized here for convenient access.

GREAT WORK!

Supported by MAHLE.

Powering Champions, Decade After Decade

200 NASCAR wins and 7 Cup Championships make the Petty name synonymous with success.

That kind of success means not sacrificing anything in the name of quality, and the reason they only trust MAHLE Performance parts – including the legendary CLEVITE engine bearings and MAHLE Performance gaskets and piston rings – in every vehicle leaving Petty's Garage. GREAT WORK!

Visit us at PRI (booth# 1601) to see what the MAHLE Performance products are all about!

MAHLE

FROM THE EDITOR

Here's what I think about the all-new Performance Racing Industry (PRI) Buyers Guide:

I THINK THERE IS NO BETTER TIME

than the present to roll out this re-imagined version of our annual motorsports industry source book. For more than three decades, the Buyers Guide has provided readers with a comprehensive directory of parts, equipment and services across every product category imaginable. If you wanted to know which companies supplied camshafts, intakes or rocker arms, you'd just flip to the Engine Components section and there they were. The same could be done for Chassis, Driveline & Suspension (clutches, rearends, torque converters, etc.), Racing Components, Accessories & Services (fasteners, helmets, tie-downs, etc.), Machinery, Tools & Equipment (balancers, dynos, valve spring testers, etc.), and Race Track Equipment & Supplies (audio systems, signage, traction conditioners, etc.). And the issue served its purpose, directing readers to the high-performance products and suppliers of their choosing in a clean, easy-to-use format. But developments of the past several years led us to begin questioning whether this setup was as effective today as when it launched back in the late 1980s. The advent of the Internet, for one, and with it search engines like Google, meant you could now locate race parts manufacturers as quickly as your WiFi connection allowed. In addition, we had also observed that more and more companies no longer fit so neatly into their designated categories. Was a business that specialized in stock car engine building, but that recently began producing cylinder heads, now considered a manufacturer?

Questions like these are the result of an industry's natural evolution. So, it was by no means a negative. It just meant we had to re-examine whether PRI's year-end directory issue was still accomplishing its intended goal. Or whether there was an alternative approach that could better serve the industry.

After a number of internal discussions and examining data from reader surveys and the like, we decided that yes, it was indeed

DAN SCHECHNER
dans@performanceracing.com

time for a change. Which ultimately led to the all-new PRI Buyers Guide, a showcase of the latest products and services from scores of the industry's leading suppliers across dozens of key categories. While we retained the sections noted above—and kept the listing of Sanctioning Bodies, Manufacturers' Reps and Warehouse Distributors from previous editions, albeit updated for 2022—the concept has evolved to better reflect today's dynamic motorsports marketplace. As you can see, the response from participating suppliers was overwhelming: More than 400 new parts, equipment and related offerings are included in this issue! With companies organized alphabetically by section, and product images, descriptions and contact information accompanying each one, we feel this new presentation gives you, our readers, a solid jumping-off point in the search for innovative components and solutions to help your business or race program succeed in the coming year.

A couple of additional notes about the Guide: For quick reference, a Suppliers Index beginning on page 192 lists out the hundreds of companies represented in this issue. And, at the start of each section you'll find expanded entries from select manufacturers that took the opportunity to display multiple products and support our mission to provide a valuable new resource for you, the racing and performance professional. Enjoy! **PRI**

PRI BOOTH #3847

ENGINE COMPONENTS

Power levels are progressing at unheard-of rates, and engine combinations that were competitive just years ago have become increasingly obsolete thanks to advances in segments ranging from blocks and sleeves to connecting rods, pistons, camshafts, valves, fuel systems, intake manifolds, and cylinder heads, among many others. Here, you'll find scores of state-of-the-art components for almost any type of powerplant.

CP-CARRILLO CHEVROLET CAMARO COPO 350 CONNECTING RODS

- The 6.350 center-to-center long, COPO 350 rods are designed for the demands of built Factory Shootout
- Capable of handling 1,400 hp and revving to 10,500 rpm
- These rods utilize the short 7/16 CARR bolt to keep the split-line clamped tightly down and weigh a mere 715 grams

Contact: 949-567-9000; cp-carrillo.com

CP-CARRILLO FULL LINE OF 5.0L FORD COYOTE BULLET PISTONS

- 5.0L Ford Coyote stock 4V CP-Carrillo Bullet pistons are specifically designed for the four valve Ford Coyote engine
- Made by craftsman in the USA from locally sourced 2618 T61 alloy forgings, and are suitable for nitrous oxide, superchargers, or turbos up to 1,800 hp

Contact: 949-567-9000; cp-carrillo.com

CP-CARRILLO BULLET RACE SERIES BLOWN E85 BBC PISTONS

- Designed specifically for high hp street/strip Chevy big blocks and fit the majority of 24° cylinder heads on the market today
- Made by craftsman in the USA from locally sourced 2618 T61 Alloy forgings
- Feature O.C. Domes that achieve 10.5 comp. and will handle 1,500 hp

Contact: 949-567-9000; cp-carrillo.com

CP-CARRILLO FORD POWER STROKE 2020+ 6.7L CONNECTING RODS

- Designed for the 2020 6.7 liter Power Stroke for up to 2,000 hp and capable of handling peak rpm of 6,000
- Available with WMC standard or optional upgraded CARR fasteners

Contact: 949-567-9000; cp-carrillo.com

ADVANCED TURBO PROTECTION WASTEGATE HEAT SHIELD

- SILICA INSULATION
- STAINLESS STEEL & SILICONE INNER LAYER
- STAINLESS STEEL MESH INNER COVER

MELLING PERFORMANCE GM LS HIGH PERFORMANCE TIMING KITS

- Four new part numbers released: 48563T-9, 48565T-9, 48564T-9, 48562T-9
- Premium billet steel
- .250" seamless double roller timing chain
- Three bolt billet steel camshaft sprocket
- Four sensor 58x Reluctor
- Nine keyway adjustable billet steel crankshaft sprocket
- One-piece Torrington thrust bearing

Contact: 517-787-8172; melling.com

MELLING PERFORMANCE HIGH VOLUME OIL PUMP FOR FORD 3.5L & 3.7L DOHC ENGINES

- Part #10390HV
- 20% Higher volume than stock
- High pressure spring installed
- Threaded pressure relief nut
- Stock pressure spring included
- Cast aluminum housing
- Anodized hard coated body and cover
- Exclusive rotor set
- Uses 0.930" bolt-on screen
- Includes oil pump screen mounting O-Ring

Made in the USA

Northern
RADIATOR

NORTHERN RADIATOR RACE RADIATORS

- High performance aluminum radiators
- Up to 24% improvement in heat transfer over other brands
- 16" & 19" styles with two rows of 1" high-capacity cooling tubes
- Single, double and triple pass options for optimum cooling
- Louvered cooling fins for better heat dissipation

Contact: 800-328-8900; northernradiator.com

NORTHERN RADIATOR INTERCHANGEABLE RADIATORS

- Cover a large variety of dirt and asphalt racing applications with minimal inventory/SKUs
- Interchangeable inlet or inlet/outlet fittings with threaded connections
- All-aluminum, two rows of 1" tubes, single or double pass styles
- Multiple hose connection options

Contact: 800-328-8900; northernradiator.com

NORTHERN RADIATOR THE BOSS 3 ROW RADIATORS

- Three rows of 1" tubes provide 30% more cooling capacity than any brand of two row 1" tube radiator
- Extra rows of cooling for demanding applications
- Finished with typical GM hose connections or as custom kits
- Machined billet aluminum SAE compliant filler neck and 1/4" plugged NPT port

Contact: 800-328-8900; northernradiator.com

NORTHERN RADIATOR ELECTRIC & ENGINE DRIVEN FAN SHROUDS

- Standard performance, high CFM, brushless electric or engine driven shrouds to fit your application
- Brushless fans provide better cooling & no AMP spikes in a smaller space
- Shrouds for cross or down-flow radiator mounting for maximum cooling
- Ask about our PWM to turn your brushed fan into a brushless fan

Contact: 800-328-8900; northernradiator.com

SETRAB USA SETRAB PROLINE OIL COOLERS & FANPACKS

- High-performance heat exchangers engineered to balance performance and flow
- Trusted by factory sport-line builds, exotics, and racers worldwide
- Flexible ranges suit various applications for cooling: engine oil,

transmission, differential, power steering, EV drive units, and more

- Fully-brazed using NOCOLOK controlled-atmospheric process in Setrab's ISO certified EU facilities

Contact: 740-625-6228; setrabusa.com

SETRAB USA SUSA PROLINE DIRECT-PORT ADAPTERS

- Fitting system adapts Setrab ProLine Oil Coolers to virtually any application
- Aluminum construction, durable & sleek anodizing, captured O-ring seal

- Offerings include: AN adapters in straight and swiveling swept angles, AN banjo adapters, direct-port hose ends, Metric & BSP, and new designs to simplify plumbing problems

Contact: 740-625-6228; setrabusa.com

SETRAB USA SUSA PREMIUM BILLET REMOTE OIL FILTER COMPONENTS

- Universalized billet components designed with signature ProLine M22 ports for compatibility with the ever-expanding range of sUSA ProLine Adapter Fittings & Direct-port Hose Ends
- Remote oil filter mounts, optional built-in thermostic oil valve for oil cooler bypass

- Remote in-line oil thermostat for oil cooler bypass control
- Spin-on oil filter take-offs

Contact: 740-625-6228; setrabusa.com

SETRAB USA SUSA HYPERFLOW ENGINE OIL FILTERS

- Filters better, flows better, lasts forever
- High flow volume, low pressure drop 30µ absolute filtration, and a strong rare-earth magnet combine for ultimate filtration performance on your street or track vehicle

- Cleanable stainless-steel mesh media filter element disassembles without tools
- Precision CNC-machined billet aluminum body with titanium-color anodized finish

Contact: 740-625-6228; setrabusa.com

VORTECH SUPERCHARGERS SMALL BLOCK FORD V-30 SUPERCHARGER MOUNTING BRACKETS & COG DRIVE ASSEMBLIES

- Available for Ford 5.0L & 5.8L engines built for extreme boost demands, the kit comes with V-30 94C supporting up to 1,400+ hp thru V-30 105A that supports up to 1,700+ hp
- Features include: drivers side mount; dual 1/2" mounting plates; hard anodized aluminum pulleys

Contact: 805-247-0226; vortechsuperchargers.com

VORTECH SUPERCHARGERS BIG BLOCK CHEVY V-30 RACE SUPERCHARGER MOUNTING BRACKET ASSEMBLY

- Billet Mounting Bracket Assembly engineered to install the respected V-30 Centrifugal Supercharger onto modified big block Chevy engines
- Utilizing twin-plates & hard anodized 50-mm cog pulleys
- 1,700–2,800 hp level kits are available for BBC engines with 9.8 & 10.2 deck heights

Contact: 805-247-0226; vortechsuperchargers.com

VORTECH SUPERCHARGERS LS-SWAP 5TH GEN CAMARO SS FEAD SUPERCHARGER

- LS-Swap supercharger kit capable of supporting up to 1,200-hp based on the 5th Gen Camaro SS FEAD
- Includes the V-7 YSi head unit, mounting brackets and option of either 10-rib pulley or 50-mm cog drive components

Contact: 805-247-0226; vortechsuperchargers.com

VORTECH SUPERCHARGERS LS V-30 RACE SUPERCHARGER MOUNTING BRACKET ASSEMBLY

- Mounts the V-30 Supercharger onto Chevy LS engines using a billet mounting bracket assembly with kits ranging from 1,400+ hp up to 2,800+ hp
- Billet aluminum twin-plate construction
- Fits 4.8L thru 7.0L LS engines
- Compatible with most aftermarket LS cylinder heads and blocks

Contact: 805-247-0226; vortechsuperchargers.com

**WEGNER AUTOMOTIVE
DIRT LS 427 WEEKEND WARRIOR**

AMAKER 500 TURBO FOR IS38 2.0 TSI GEN3

- Direct bolt-on turbo
- Includes oil and water pipes
- Easy to install
- High-efficiency blade turbine and compressor wheel design
- Custom-made turbine housing allows smoother air intake
- Proven in testing to be capable of up to 674 WHP with 3.2-bar boost

Contact: +886-7-363-1008
amaker-turbo.com

ANTIGRAVITY BATTERIES ANTIGRAVITY RE-START LITHIUM BATTERY

- The first and only lithium battery with built-in wireless jump-starting
- 70% lighter than a lead-acid battery at only 14 pounds but with twice the cranking power
- Full Battery Management System protects the battery from damage and increases safety

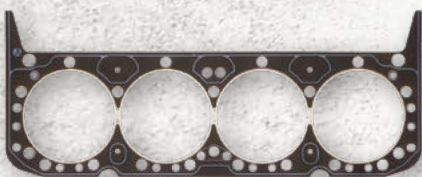

Contact: 714-476-5212
antigravitybatteries.com

ARE DRY SUMP SYSTEMS DRY SUMP TANKS

- Four-axis CNC machined
- 356-T6 aerospace aluminum alloy
- Virtually any height
- Ultimate in baffling and venting system

BRODIX® has **TOTAL CONTROL** of the manufacturing process from start to finish which allows us to offer our customers maximum value for their investment.

BRODIX products are made in the USA at our foundry with the use of spectrochemical analysis where we have had four generations of precision metal casting experience.

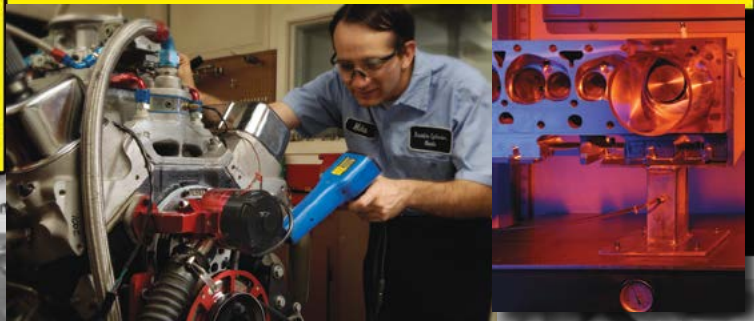

BRODIX uses 5-axis CNC porting with the coordinate measurement system to 100% CNC machine all heads with total accuracy.

From lifetime customer service and technical support to continuous development and testing, BRODIX is dedicated to serving our customers well into the future.

We are the only manufacturer with total repair capabilities. We successfully repair 98% of the damaged BRODIX heads that are returned to us.

As racers and car enthusiasts ourselves, we know racing parts are a big investment. That is why we work hard every day to ensure that we produce the best of the best!

PROUDLY MADE IN THE USA!

BRAND NEW HEAVY-DUTY CAST ALUMINUM PRODUCTS

UPGRADE PERFORMANCE

MORE FLUID = LOWER FLUID TEMPS = LONGER SERVICE

THE SOLID DIFFERENCE

All of PPE's Heavy-Duty Pans and Covers come with a limited lifetime warranty and are cast from high-strength aluminum for optimal heat dissipation. Internal heat sinks and external cooling fins further reduce fluid temperatures. PPE cast products hold extra fluid over stock which also keeps your fluid running cooler. Cooler fluid lubricates better which helps increase service life and reduce service costs.

Ditch your flimsy factory pans and covers that offer no cooling or protection. Bolt on higher fluid volume, added strength and better performance.

Heavy-Duty Cast Aluminum Rear Differential Cover
2020 - Current GM 6.6L Duramax 2500/3500 Diesel
Available in Raw, Brushed and Black finishes
138053000, 138053010, 138053020

Innovations in performance.

GREAT WORK!

Supported by MAHLE.

Powering Champions, Decade After Decade

200 NASCAR wins and 7 Cup Championships make the Petty name synonymous with success.

That kind of success means not sacrificing anything in the name of quality, and the reason they only trust MAHLE Performance parts – including the legendary CLEVITE engine bearings and MAHLE Performance gaskets and piston rings – in every vehicle leaving Petty's Garage. GREAT WORK!

Visit us at PRI (booth# 1601) to see what the MAHLE Performance products are all about!

RaceQuip

THE ULTIMATE SOURCE FOR YOUR SNELL SA2020 HELMET NEEDS!

racequip.com 813.642.6644

PRO20 HELMETS

- Pre-Preg Composite FRP Shell
- HANS/FHR M6 Threaded Inserts Installed
- Expanded Polystyrene (EPS) Liner
- Slick Aero Design With Chin Spoiler
- Great Peripheral Vision

- Comfort Fit Blended Nomex® Interior
- Distortion Free 3mm Polycarbonate Shield
- Aluminum Pivot Kit W/Adjustable Friction Lock
- Silicone Eyeport Seal Keeps Out Dirt
- Stocked in Sizes XXS - 3XL

Available In All The Colors Shown Above Plus White And Hot Pink

CARBON FIBER VERSION

- Low Profile For Extra Cage Clearance
- Cools and Eliminates Shield Fogging
- **New** For 2020
- HANS/HNR M6 Threaded Inserts In Shell

PRO20 TOP AIR

COMPOSITE FRP VERSION

- Expanded Polystyrene (EPS) Liner
- Comfort Fit Blended Nomex® Interior
- Distortion Free 3mm Low Fog Shield
- Great Peripheral Vision

FIA FULL CONTAINMENT COMPOSITE RACING SEATS

- FIA 8855-1999 Certification – Hologram Affixed
- Pro Racing Design With Thigh And Hip Support
- Integral Shoulder and Rib Bolsters
- One-Piece Lightweight FRP Composite Shell
- Accommodates All Head & Neck Restraints
- Five Seat Belt Guides Handle 4, 5, or 6 Point Sets
- Energy Absorbing Foam for Comfort And Safety
- Black Mesh Fabric Cover For Breathability

- Shiny Black Gelcoat Finish On Exposed Areas
- Four Built-In 6mm Side Mount Fasteners (Brackets Not Included)
- Optional RaceQuip Brackets Allow Seats to Go From 0° Upright to 30° Layback
- Available In Size Medium, Large, and X-Large

FIA FULL CONTAINMENT SEATS

PRO20 CARBON FIBER

- **New** For 2020
- HANS/FHR M6 Threaded Inserts
- 3mm Low Fog Shield
- Comfort Fit Nomex® Interior
- Carbon Fiber & Kevlar® Construction

STANDARD FIA
RACING SEATS
ALSO AVAILABLE

OF20 OPEN FACE

- HANS/HNR M6 Threaded Inserts
- FRP Composite Shell
- Expanded Polystyrene (EPS) Liner
- Great Peripheral Vision
- Now Available in Gloss Black or White

PRO20 SIDE AIR

- Inlet uses 1.250" Hose
- Air Flows Across Faceshield
- HANS/HNR M6 Threaded Inserts

CARBON FIBER VERSION AVAILABLE

KING RACING PRODUCTS KING RACING FUEL FILTER WITH SHUT OFF

- King Racing Products fuel filters with built-in shut-off valve are available with male #6, 8, 10 and 12AN threads
- Stainless internal 100 micron element is easily cleaned and serviceable
- All O-rings are Viton so there is no rusting or corrosion

ORACLE LIGHTING

ILLUMINATED LOGO DECALS CUSTOM GLOWING GRAPHICS FROM ORACLE LIGHTING

ORACLE Lighting's glowing logo panels are a true game changer for night time motorsports marketing. This is an easy way to add a unique appearance that is sure to grab attention. These semi-rigid panels can be made in a variety of shapes, colors, and sizes suited to your precise details. Custom-made to order, these panels are constructed from an electro-luminescent material which glows softly at night.

Each panel comes with a small power supply which simply connects to 12V power. These panels are rated at 2,500 hours of use under normal operating conditions. These are designed to stand up to most abuse but life may be reduced if used in extreme applications. To find our more information please fill out the LED Illuminated Logo Decal Contact Form at: www.ORACLElights.com/Logos

PERFORMANCE SERIES

BEAST MODE

ACHIEVED

We Outperform Our Competition In Every Series*

Performance Series Universal Joints

We outperform our competition...
So you can outperform yours!

*Our Performance Series Universal Joints have been tested/proven to outperform in:

- Ultimate Strength (pure brute strength)
- Low-Cycle Fatigue (off-road & racing durability)
- High-Cycle Fatigue (everyday use & towing durability)

* Neapco Performance Series Universal Joints are made in the U.S.A. and are immediately available in: 1310, 1330, 1350, 1410 series

Several conversion joints are also available

Coming soon: 1480 and 1550 series

MCLEOD RACING MCLEOD MINI MAG CLUTCH KIT FOR GM

- The Mini Mag 7 1/4" clutch kits have the only friction material designed to endure the required slippage for racing
- With a high clamp to wear ratio, low moment of inertia, and an open clutch cover design to keep the unit running cooler under heavy use
- These kits are racer rebuildable disc and floater packages along with replacement part availability
- The Mini Mag for GM cover the one-piece or two-piece cranks

Contact: 714-630-2764; mcleodracing.com

MCLEOD RACING MCLEOD SOFT LOK CLUTCH

- The McLeod Soft Lok assembly is the most widely used McLeod clutch for drag racers; unit is NOT recommended for street use
- As a NHRA and IHRA record holder, this assembly has low static pressure for a light pedal effort and soft clutch engagement
- This unit leaves the starting line harder with less tire spin
- The Soft Lok is equipped with adjustable spring pressure and is available with counter-weights
- Included is a pressure plate, sintered iron disc, and aluminum flywheel

Contact: 714-630-2764; mcleodracing.com

MCLEOD RACING TREMEC MAGNUM TRANSMISSION

- The kingpin of TREMEC's high performance lineup, the Magnum double-overdrive six-speed transmission takes the very best from TREMEC's current OEM technologies and pairs it with the most popular features of the TKO five-speed
- Able to withstand 700 lb-ft. of torque while providing unbelievably crisp shifts, no other manual transmission offers the combined strength, versatility, and general ease-of-use as the Magnum
- Known in its original equipment form as the "TR-6060," the Magnum is an aftermarket version of the same transmission found in many of today's most celebrated factory muscle cars

Contact: 714-630-2764; mcleodracing.com

MCLEOD RACING MCLEOD MAG FORCE CLUTCH KIT

- Ideal choice for racers seeking lightweight, high torque capacity unit
- Designed for oval track, road racing, and dry lake applications
- Offered in single disc (500 ft. tq.), double disc (900 ft. tq.), and triple disc (1,500 ft. tq.) configurations to meet racing's harshest demands
- Utilizes pin drive actuation system; floater plate slides on six evenly spaced pins for quick release

Contact: 714-630-2764; mcleodracing.com

sonnax

SONNAX
SONNAX GM 4L80/85-E EXTREME DUTY INPUT SHAFT

- Input shaft failure is a major pain point in transmissions running with extreme horsepower
- Made from high-strength Aermet steel alloy and loaded with advanced features
- Delivers unrivaled performance and durability in applications pushing 1,000+ hp
- Part #34670-02

Contact: 800-843-2600; sonnax.com

SONNAX
SONNAX GM TH350/C HEAVY DUTY INTERMEDIATE OVERRUN CLUTCH OUTER RACE

- Race failure is a chronic problem
- This revolutionary upgrade eliminates every weak point and delivers twice the torque capacity of any OE or aftermarket race for unrivaled reliability at any power level
- Part #35723HD-02

Contact: 800-843-2600; sonnax.com

SONNAX
SONNAX MUSTANG 6-BOLT ADAPTER FLANGE YOKE KITS

- Ideal upgrades for Mustang driveshafts, these flanges allow elimination of the OE CV joint
- Combined with Sonnax tubing and weld yokes, they dramatically increase strength and durability while reducing future maintenance costs
- See website for application details

Contact: 800-843-2600; sonnax.com

SONNAX
SONNAX GM 4L80/85-E PERFORMANCE PACK

- This comprehensive kit (#HP-4L80E-01) upgrades work/sport vehicles for maximum performance and durability
- It delivers firmer shifts under load without sacrificing low-speed drivability, and targets common wear areas in the transmission to repair damage, prevent wear, and improve reliability

SPLIT MONO LEAF SPRINGS

Jeff Offert's 1966 Dodge Coronet 500
Callraes, Split Mono Leafsprings, CR Front Racing Shocks, CR Rear Shocks
Photo by Rod Jeffers

Available for virtually any leaf spring vehicle.

Calvert's performance Split Mono Leafsprings provide increased spring rate over stock springs. This slows down rate of separation for faster and more consistent 60' times. Helps plant the rear without unloading. Assembled and ready to install, the unique parabolic design distributes stress along the length of the spring and can withstand over 2,500 HP.

Street vehicles - cars, trucks, and motorcycles - can't be converted into racecars according to the EPA.

The EPA has announced that enforcement against high performance parts - including superchargers, tuners, and exhaust systems - is a top priority.

If you're a racer or enthusiast, it's time to get involved and protect your rights!

**SUNNEN
PRODUCTS CO.**

1924

New Logo, Same Great Products, Service and Innovation!

A lot has changed since Sunnen opened for business in 1924. For instance, Joe Sunnen's original hand-operated cylinder hone has evolved into a computer controlled system that automatically hones an entire engine block at the touch of a button.

But some things haven't changed. We are constantly innovating to provide new solutions and better performance. Our product quality is still number one. And our factory trained sales and application engineers offer the solutions you need

The new logo you see on our products may look different than those in the past, but you can rest assured Sunnen is the same great company. We look forward to serving you as we prepare for the next 100 years!

Contact us today at 800-325-3670 or visit Sunnen.com

DLC COATINGS PERFORM

Coating Solutions:

- Calico D
- Calico D-2
- Chromium Nitride (CrN)
- Diamond Like Carbon (DLC)
- Teflon®
- Titanium Nitride (TiN)

Diamond Like Carbon (DLC)

Calico's DLC coatings are leading the industry in performance. They can be applied to almost any material that is compatible with a vacuum environment and can withstand temperatures up to 220°C. Most widely used applications are tool steels, maraging steels, stainless steels, aluminum and titanium.

CalicoCoatings.com | 704.483.2202 | Connect with us online.  

Technical Benefits:

- Ultra low coefficient of friction
- Superior wear resistance
- Uniform in thickness
- High chemical resistance
- Corrosion protection

From racing suits and helmets to oils and lubricants, trailers and awnings, toolboxes, and much more, here you'll find a diverse range of new products and services for teams, drivers, and vehicles. Whether at the shop, in transit, in the pits, or on track, these offerings will enhance both professional and grassroots operations alike by providing innovative parts and solutions in speed, safety, and convenience.

pakelo
LUBRICANTS

**PAKELO LUBRICANTS/RISI PERFORMANCE OILS
PAKELO CLASSIC**

- PAKELO CLASSIC engine and gear lubricants designed for classic vehicles from the 1960s–1990s
- Made with proper period additives compatible with rubber and paper gaskets and vintage components
- Period correct zinc and phosphorus packages ensure protection without needing to add your own
- Performance levels API SL/CF, SF/CC, GL-3, GL-4, and GL-5

Contact: 844-472-5356; pakelo-usa.com

**PAKELO LUBRICANTS/RISI PERFORMANCE OILS
KRYPTON RACING**

- PAKELO KRYPTON RACING is a high-performance full synthetic lubricant made from PAO base stocks and exclusive additives that confer to the product cold start protection, high detergent, dispersant, anti-oxidative, anti-corrosion, anti-wear, and anti-foam properties
- Made for high-performance gasoline or diesel engines
- ACEA A3/B4, API SM, API SL/CF

Contact: 844-472-5356; pakelo-usa.com

**PAKELO LUBRICANTS/RISI PERFORMANCE OILS
PAKELO GLOBAL GEAR DLS**

- PAKELO GLOBAL GEAR DLS is a full synthetic lab-made lubricant for limited-slip differentials
- Special additive packages provide high anti-oxidative, anti-wear, anti-rust, anti-foam, extreme pressure, limited-slip properties, and exceptional thermal stability properties
- The EP additives prevents micro-welding and wear. Excellent efficiency with maximum protection

Contact: 844-472-5356; pakelo-usa.com

**PAKELO LUBRICANTS/RISI PERFORMANCE OILS
TRANSMISSION DLS A**

- High-performance transmission lubricant specific for racing car transmissions
- The product represents the result of a long-term study, design, and development focused to obtain an innovative chemistry suitable for extreme racing conditions
- Pakelo Racing Transmission DLS A provides exceptional resistance to wear and extreme pressures; great anti-oxidative, anti-rust, and anti-foam properties; absolute shear stability
- Maintains its starting viscosity during service even when undergoing extreme mechanical stress; effective LS (Limited Slip) properties

Contact: 844-472-5356; pakelo-usa.com

SCHAEFFER'S SPECIALIZED LUBRICANTS MICRON MOLY RACING OIL 20W-50

- Resistance to mixing with alcohol-based fuels
- Extra zinc to protect flat tappet cam engines and other components from wear
- Extra protection for when engines are operating at higher temperatures
- Fortified with proprietary friction modifiers Penetro and Micron Moly to reduce wear, heat and friction

Contact: 314-865-4100; schaefferoil.com

SCHAEFFER'S SPECIALIZED LUBRICANTS PENETRO 90

- Excellent on Heim joints, wheel studs, and weight jack bolts that have become difficult to operate
- Prevents thread stripping; busts through rust
- Doesn't affect seal materials or coatings
- Greatly reduces friction and wear
- Penetrates deep into the pores of metals; cover surfaces with a clear lubricating film

Contact: 314-865-4100; schaefferoil.com

SCHAEFFER'S SPECIALIZED LUBRICANTS CITROL DEGREASER

- Rapidly penetrates through the buildup so the gunk can be removed by rinsing water
- Fast-action, industrial strength cleaning power
- Cuts through heavy greases, tar, gear lubes and other stubborn oily buildups
- Ideal for cleaning and removing heavy greases, carbonized oils, grime, grease buildups, oil deposits and adhesives

Contact: 314-865-4100; schaefferoil.com

SCHAEFFER'S SPECIALIZED LUBRICANTS MOLY EP SYNTHETIC PLUS GREASE

- Low tack, waterproof, extreme pressure grease with a synthetic blend base
- Excellent in wheel bearings, ball joints and tie rod ends
- Excellent shear and mechanical stability: grease stays in place, resists separating and running off components
- Designed for extreme pressures and wide temperature ranges

Contact: 314-865-4100; schaefferoil.com

THERMO-TEC AUTOMOTIVE GENERATION II COPPER EXHAUST WRAP

- Improves heat resistance up to 30% more than current technology
- Proprietary coating developed by Thermo-Tec
- A Thermo-Tec exclusive
- Withstands continuous heat up to 2,000 degrees
- Creates more horsepower and reduces under-hood temperatures

Contact 800-274-8437; thermotec.com

THERMO-TEC AUTOMOTIVE ADHESIVE-BACKED HEAT BARRIER

- Protects parts and components from radiant heat
- Capable of withstanding radiant temperatures up to 2,000 degrees
- Handles direct and continuous temperatures up to 300 degrees
- Made from woven silica with a flexible aluminum finish

Contact 800-274-8437; thermotec.com

THERMO-TEC AUTOMOTIVE CLAMP-ON HEAT SHIELD

- A Thermo-Tec exclusive
- Blocks over 95% of the damaging radiant heat of the exhaust
- High-tech composite construction
- Complete with all clamps and stainless stand-offs
- Installs in minutes

Contact 800-274-8437; thermotec.com

THERMO-TEC AUTOMOTIVE HEAT SLEEVE

- Designed to protect wires, cables, and hoses
- Braided fiberglass with a compound silicone rubber finish
- Continuous protection up to 500 degrees and short-term exposure up to 2,200 degrees
- Available in silver and black

PALMGREN®

**EMBRACE
THE WORK™**

Check out the full line of Arboga® Drill Presses at palmgren.com

Very simply put, there isn't any other gear head drive drill press that can compete with our Palmgren® Arboga® models.

Unmatched by cheap imitations, Arboga drill presses are quality built, with precision transmissions and features that make them a must have.

Palmgren is an industry leader in providing the finest metalworking tools and machines. Our rich history in workholding and machine vises is unparalleled.

This heritage of innovation and quality is built into every product we sell. Step up to Palmgren and "EMBRACE THE WORK™"

UEM HAS YOUR PISTONS

RACE

ICON PREMIUM Forged 2618 and 4032 Alloys – Fully CNC machined crowns and ring belt section. Ultra-Flat ring grooves with many numbers having type 3 hard anodized top grooves. 2618 Alloy is best suited for use with extreme power adders and many of these applications include Gas-Ported top ring grooves and forced fed pin oiling.

Piston and ring set kits available. Many with new metric Stainless Steel PVD coated top and Ductile Iron Napier second ring sets which are recommended for nitrous and boosted applications.

HOT STREET

ICON FHR Forged 4032 Alloy – Street/Race applications including moderate power adders. In house forging and heat treating offers exacting control over the base piston platform. FHR series start with a near finished forging blank and are diamond machined to exacting specifications with a wide array of coating options available.

Complete piston kits include pistons, UEM rings, pins and lock rings.

TOW RIG

DUALOY Diesel Pistons – We offer an alternative to your supply problems with a proven high performance Diesel piston replacement. Pistons include critical features such as iron top ring carriers, under crown cooling gallery, and complex bowl geometries. Alloys are specifically formulated to resist high temperature fatigue cracking. We take the work out for you by offering a .010" reduced compression height option along with thermal barrier coatings. Most popular Cummins, Ford Powerstroke, GM Duramax Applications. Good platforms for your own performance mods.

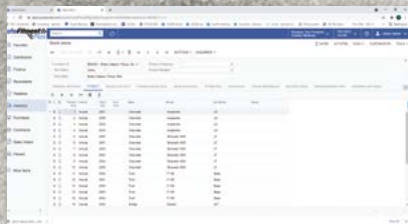

OE

SILV-O-LITE Pistons – Each Silv-O-Lite piston is manufactured from cast aluminum and then diamond machined to produce exacting tolerances in critical features such as crown, pin hole, skirt, and ring grooves. Unique alloy compositions provide strength and wear resistance while T5 heat treatment provides long term durability. UEM offers a full line up of crown designs consistent with the latest high output direct injected OE engine designs.

PRO SERIES
ROD SHOWN

SCAT LS BILLET WITH CENTER
COUNTERWEIGHTS SHOWN

SCAT CHEVY LS ROTATING ASSEMBLY
SHOWN WITH STANDARD WEIGHT FORGED
CRANK AND PRO SPORT H-BEAMS

“ We have been using SCAT products since the early 1990s and have yet to have one break or fail in any way! The customer service is incredible and the technical knowledge Tom Lieb (owner of SCAT) has to offer is priceless! Having purchased hundreds of cranks and sets of rods and punishing them in extreme environments (Bonneville, Off Shore Marine, Baja, Hot Rod Drag Week and more), I have been so impressed with the reliability that they are standard in almost all our engine packages. **SCAT products are hands down the best bang for the buck available!** ”

RACE SERIES LS 10° 368cc LS - CNC GEN III - OVAL PORT CAST ALUMINUM CYLINDER HEADS

Dart's Race Series 10° LS cylinder head is the ultimate choice for maximum competition, designed with key flow and performance enhancing features.

- Raised, Pro Stock oval ports, canted valves, and highly efficient wedge style combustion chambers provide improved work flow and efficiency
- Intake and exhaust valve locations are reversed from traditional LS head design to achieve the performance standard for maximum power wedge engines
- Precise combination of 10° valve angle, splayed valve layout, reversed symmetrical intake ports, and highly efficient combustion chambers engineered and tested to deliver maximum power

Recommended for drag race, maximum competition, naturally aspirated, heavy nitrous, or forced induction LS engines with 4.155" or larger bore.

**Heads are sold individually*

NOW AVAILABLE FULLY ASSEMBLED

Now available fully assembled with copper alloy seats, titanium intake and exhaust valves, roller springs set up for .900 + lift. Also available with Manley extreme duty intake valve and inconnell exhaust valve.

POWER ADDER PROVEN

"World Products gave me the opportunity to achieve what they said could not be done, my dream of 6 second passes came true"

Using A World Products Cast Iron Man O War 9.5 Small Block Ford as the base of his power plant, Frank Marchese has added 57lbs of boost to power his 3950 pound Australian Four Door Falcon to incredible numbers.

His 7.36 at 192mph feat in the summer heat was the quickest and fastest performance in the Australian Drag Challenge's five-year history. And five months later, at the 2019 Australian Jamboree in April, he recorded 6.98 at 209mph at Sydney's Willowbank track, and two hours later he transcended the performance with a time of 6.96sec at 211mph.

V-30

RACE SUPERCHARGERS

Vortech Racer Danny Nelson, continues to dominate Top Dragster at the NHRA-Camping World Drag Racing Series, once again trusted his Vortech V-30 123A Centrifugal Supercharger recently winning at both Topeka KS and Charlotte NC. The Vortech V-30 series of Race Superchargers are designed and built to get Drag Racers down the strip faster than the competition- period. The V-30s have proven to be the most reliable, efficient, and consistent supercharger at the track over any other option. With options ranging from the 1400-hp capable V-30 94A all the way up to the 3,200-hp capable V-30 131B, Vortech Superchargers can answer the call for any racer's need for more power.

Power + Durability

Crankshaft torsional vibration robs power and breaks parts. Install a Fluidampr performance damper whenever major engine modifications are done.

- Broad RPM range protection.
- No tuning or maintenance.
- Superior durability.
- SFI 18.1 cert. Made in USA.

Trusted by OEM race teams & leading engine builders.

Photo Courtesy: Mike Mavrigian

Every Toolbox Needs...

WALTON™ Tap Extractors & Tap Extensions

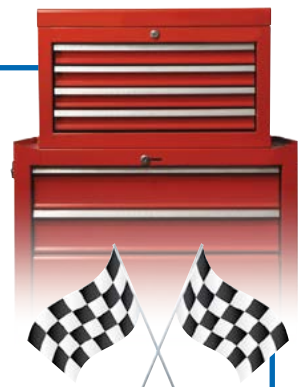

Performance professionals have depended on high-quality Walton tools since 1908.

TAP EXTRACTORS

- Remove broken taps simply and safely, without drilling, lasers, damaged threads, scrapped parts or repair inserts.
- Available in every tap size, both inch and metric.

TAP EXTENSIONS

- Extend the reach of regular-length taps and allow tapping in deep holes and awkward locations.
- Square and round sockets conform to leading tap sizes.
- Suitable for both machine and hand-tapping.

Available as sets or individual pieces.

Tapping into good ideas for over 110 years.

RACE TRACK EQUIPMENT & SUPPLIES

Owners and operators of road courses, large and small ovals, and drag strips across the US and around the world can always benefit from new products and services designed to improve racing programs through better track conditioning, communications, safety, and elsewhere. A select group of these providers offer the very best in solutions for race venues and competitors representing nearly all forms of motorsports.

GINGERMAN RACEWAY

GINGERMAN RACEWAY TRACK RENTAL

- Rent the GingerMan Raceway
- 2.14-mile, 11-turn road course in beautiful South Haven, Michigan
- One of the safest road courses in the nation
- Course layout simulates the full spectrum of driving situations: high speed straights and short sprints, long sweeping corners and tight apexes, heavy and light braking, and elevation change

Contact: 269-253-4445
gingermanraceway.com

M1 CONOURSE M1 CONOURSE

- 87-acre automotive enthusiasts' playground
- Features private garage community and 28,500-square-foot, state-of-the-art event center adjacent to the speedway
- Champion Motor Speedway is a 1.5-mile high-performance track with a 2.5-acre dynamic arena
- M1 Concourse hosts two signature events: Woodward Dream Show and American Speed Festival

Contact: 313-300-3486
m1concourse.com

MASS TRACTION TRACK SURFACE PREP SERVICES

- Services include scraping, edging, spraying, dragging, maintaining, etc.
- Event and show hosting/promoting includes racing events, dirt drag events, etc.
- Training of facility personnel in surface maintenance, program execution, safety, starting line, staging lanes, etc.
- Consultation services include facility, operations, track surface, event execution, etc.

Contact: 218-851-8922
masstraction.com

PJH BRANDS TRACKBITE SURFACE TREATMENT

- Superior traction treatment for drag strips and paved ovals

Contact: 480-991-8002

PROFESSIONAL MOTORSPORTS SOLUTIONS RACE TRACK SUPPLIES

- Timing systems
- Line-up software
- Scoreboards
- Flags
- Radios
- Official shirts
- Custom checkered flags
- One-way radios

Contact: 704-644-0883

AMERICA'S FINEST COMPETITION CARBURETION

4760 602 & 604 Crate Engine Carburetors
Braswell Carburetion offers a complete line of our B4760 carburetors for both the 602 and 604 crate engines. There are five models for each engine available for the following fuels:

Pump Gas/110
CHP
E85
Ethanol
Methanol

Each carburetor is sized and calibrated for the best track performance for each engine. All carbs have gone through extensive R & D as well as track testing and are competition proven. These are the best carburetors currently available for crate motor racing.

LEARN MORE AT PERFORMANCERACING.COM/MEMBERSHIP

MANUFACTURERS' REPRESENTATIVES

An invaluable conduit between performance racing manufacturers and the customers who move their parts, manufacturers' representatives interact with everyone from the largest warehouse distributors to the smallest speed shops and engine builders. They often act as a supplier's outside sales force, albeit one that can also work trade shows and/or car shows on their behalf, as well as manage their clients' wholesale operations.

KINSLER

We did the Lucas metering for the Can-Am: 60's thru 70's; still do. Any injection: Road race, Sprint cars, Boats, Indy 500, NASCAR Cup, Drags, Motorcycles, Bonneville, Pullers, Street, etc. EFI, Constant Flow, Lucas Mechanical

Action Express Cadillac, '14, '15, '16, '17, '18' IMSA Champs. Overall '20 Daytona 24 Hrs.

360 ASCS National Tour Champion '16, '17, '18, '19 & '20

Super Vette, Riley Tube chassis, engines by Lee Muir. Ran Kinsler crossram manifold and Lucas mechanical metering.

Canepa

K-140 Pressure Relief Valve
 Used on 95% of NASCAR Cup and INDY 500 cars

Monster Mesh Filter
 10/3 Element
 (248)362-1145

EFI Injectors, all makes of Pressure Relief Valves and Lucas Mechanical Metering Units, and need 3 micron protection, but 3 micron filters plug up too quickly, so most racers use 10 micron, which is too coarse. We made this new element for NASCAR Cup cars: 10 micron premium paper top layer to take out 95% of the dirt, with a 3 micron precision Fiberglass lower layer. Details: Kinsler.com home page.

WINNING TOGETHER

**WE BUILD, PROMOTE, AND PROTECT
THE RACING COMMUNITY.**

PRI Membership is designed to bring the racing community together and protect our industry from government overreach. It also comes with exclusive benefits. Join PRI today and help us build a stronger tomorrow.

**THE #1 BENEFIT
OF PRI MEMBERSHIP
IS WORKING TOGETHER TO
SAVE OUR RACECARS!**

By enforcing rules that ban street cars from being converted into dedicated race cars, the Environmental Protection Agency poses a serious threat to the racing industry. We MUST unite to make our collective voice stronger in Washington, DC, to help preserve motorsports for future generations.

**LEARN ABOUT MEMBER BENEFITS AND WHAT YOU CAN DO
TO BECOME A PART OF THE FIGHT TO PROTECT RACING:

WAREHOUSE DISTRIBUTORS

As a crucial link between motorsports industry suppliers and the retail businesses that interact directly with racers and team members, warehouse distributors (WDs) provide valuable storage space as well as communication tools, technical support, cataloging, and other useful services. Many also operate within an established marketplace, providing them unique insight into the parts and equipment in demand for a particular region.

Street vehicles - cars, trucks, and motorcycles - can't be converted into race vehicles according to the EPA.

The EPA has announced that enforcement against high performance parts - including superchargers, tuners, and exhaust systems - is a top priority.

If you're a racer or enthusiast, it's time to get involved and protect your rights!

HYLIFT JOHNSON LIFTERS

Pointing You in the Right Direction!

When you are searching for parts and it's not clear if the picture matches the brand, the quality matches the price, or who the actual manufacturer is. It's time to come down out of the cloud. It's time to ask for **Topline Engine Parts & Hylift-Johnson Lifters**, the brands that are sold and recommended by the most knowledgeable, experienced and trusted engine parts distributors in the world.

We offer all the internal parts to assemble your engine rebuild. Valve train, lifters, pistons, rings, bearings, oil pumps and gasket sets. All manufactured to o.e. specifications, QSO or ISO certification.

The Hylift-Johnson Lifter Co. manufactures the most complete line of stock and high performance lifters in the industry.

Our hydraulic lifters, mechanical tappets, and lash adjusters, are all made in the U.S.A.
